

## Machine Tool

### Lubring (Turcite B)

- Ideal for machine builders and re-conditioners
- Replaces standard phosphor-bronze LM guideways
- One-side etched for easy bonding

### Bush Bearings

- Self-lubricating bearings with high wear properties
- Customised dimensions available
- Effective in high-heat and corrosive environments
- Suitable for applications with high RPMs

### Wear Strips and Bands

- High-wear resistant bands and strips
- Industry leading levels of tolerance on thickness
- Custom grades to allow for fine-tuning of coefficients of friction, PV factor, and wear resistance
